

KnowBe4 (Security Awareness)

Securing the Human Element

Building an effective security awareness program is an arduous task. There is a lot of information at your fingertips, but how do you turn that into something useful? Understanding a program's critical components and connecting them together to design a comprehensive, continuous and engaging Security Awareness Program is where DataComm and KnowBe4 step in to help.

DataComm is your trusted provider and KnowBe4 is the world's largest integrated Security Awareness Training and Simulated Phishing platform with tens of thousands of active enterprise accounts. You finally have a company you can trust paired with an industry leading platform to better manage the urgent IT security problems of social engineering, spear-phishing, and ransomware attacks and at the same time stay compliant with industry regulations like PCI, HIPAA, SOX, FFIEC and GLBA.

"74% of successful data breaches included the human element (Phishing, Social Engineering)"

- 2022 Verizon Data Breach Investigations Report

Service Includes

- Access to Training Levels 1, 2 & 3
- Brandable Content
- Assessments
- Advanced Reporting
- Industry Benchmarking
- Monthly Email Exposure Check
- Social Engineering Indicators

4 Simple Steps to Take Control of the Human Element

Baseline Testing

Our solution provides baseline testing to assess the percentage of your users through a free simulated phishing attack.

Train Your Users

The world's largest library of security awareness training content; including interactive modules, videos, games, posters and newsletters. Automated training campaigns with scheduled reminder emails.

Phish Your Users

Best-in-class, fully automated simulated phishing attacks, thousands of templates with unlimited usage, and community phishing templates.

See the Results

Enterprise-strength reporting, showing stats and graphs for both training and phishing, ready for management.

Optional Add-Ons

Compliance Plus: Available as an optional add-on across all subscription levels. Compliance Plus training is interactive, relevant, and engaging with real-life simulated scenarios to help teach your users how to respond in a challenging situation. The content addresses difficult topics such as sexual harassment, diversity and inclusion, discrimination, and business ethics. The Compliance Plus library includes various types of media formats and reinforcement materials to support your compliance training program.

PhishER: Available as a stand-alone product or as an optional add-on across all subscription levels. PhishER is your lightweight SOAR platform to orchestrate your threat response and manage the high volume of potentially malicious messages reported by your users. Emails can be reported through the KnowBe4 Phish Alert Button or simply by forwarding to a mailbox. With automatic prioritization for emails, PhishER helps your InfoSec and security operations team cut through the inbox noise and respond to the most dangerous threats more quickly (minimum 101 seats).

“The average time to identify and contain a security breach is 277 days, with 207 days to identify the breach and 70 days to contain it.”

- 2022 IBM Data Breach Report

Why Choose DataComm?

- **Experience:** DataComm has over 20 years of experience providing security solutions to organizations of all sizes and industries. Our team of security experts has the knowledge and expertise to help you develop a customized security solution that meets your specific needs.
